### Definition of Disability

For the benefit waiting period and the first 24 months that Long Term Disability benefits are payable, you will be considered disabled if, as a result of physical disease, injury, pregnancy or mental disorder:

- You are unable to perform with reasonable continuity the material duties of your own occupation, and
- You suffer a loss of at least 20 percent of your predisability earnings when working in your own occupation.

You are not considered disabled merely because your right to perform your own occupation is restricted, including a restriction or loss of license.

After the own occupation period of disability, you will be considered disabled if, as a result of a physical disease, injury, pregnancy or mental disorder, you are unable to perform with reasonable continuity the material duties of any occupation.

### Maximum Benefit Period

If you become disabled before age 62, Long Term Disability benefits may continue during disability until age 65 or to the Social Security Normal Retirement Age (SSNRA) or 3 years 6 months, whichever is longest. If you become disabled at age 62 or older, the benefit duration is determined by the age when disability begins:

Age	Maximum Benefit Period
62	To SSNRA, or 3 years 6 months, whichever is longer
63	To SSNRA, or 3 years, whichever is longer
64	To SSNRA, or 2 years 6 months, whichever is longer
